

Workshop for your conference

We firmly believe that well-being and creativity go hand in hand. To balance productive meeting days, we offer a master class with Jessica Lyon.

Masterclass with Jessica Lyon

Book a masterclass with our amazing gardener, Jessica Lyon. The content is tailored to the season and can cover everything from edible plants and sustainable cultivation to harvesting and seasonal cooking. You'll also learn how to tie a wreath, plant cuttings, and build a simple insect hotel. Additionally, Jessica shares tips on what nature offers, straight from the woods and fields, to deepen your gardening knowledge.

The master class lasts 30 minutes and offers both an inspiring introduction and hands-on activities.
